Installation instructions JCK 110

Assembly and installation.

1. Press the plastic lid so that the dismountable the holes are visible.
2. By having the lid pressed insert the tip of a flat screwdriver in the dismountable holes and drag upwards.
3. Remove the lid.
4. Remove the cable screws.
5. Connect the electric wiring (12 - 24V) and place back the cable screws.
6. Fixate the plastic core with screws and washers (not included).
7. Assemble the lid by placing the lid mark in the the core spring and pressing on the right side.
